Introduction and Explanatory Notes

The 1987-88 edition of the Iowa Public Library Statistics includes data from individual libraries, state totals and averages, and analysis by region, by size and by county. Acquisitions by individual library are included in this edition. The county study has been modified to provide an actual per capita study of income, holdings and circulation for municipal libraries, county libraries, and each county as a whole.

Surveys from 498 libraries are included in this publication. The State Library has made timely distribution of this publication a high priority. I regret that some surveys received after the deadline are not included.
